

Environmental Services Contract

GSA Schedule # GS-10F-0044U

What is the GSA? *The GSA or General Services Administration serves as a central marketplace for government buyers to find nearly every commercial product, service and solutions for immediate purchase. All GSA contract vendors are pre-approved and verified to be adequate to supply the various federal agencies with quality goods and services at a fair price. VEETech has the expertise necessary to perform a variety of task under the Environmental Services Schedule 899.*

Why buy off the GSA? *The GSA schedule is your key to simplifying the acquisition services, specifically of environmental engineering, compliance and remediation services. All contractors are on schedule have demonstrated the highest professional standards in the industry and are already pre-approved to do business with you.*

How to buy off the GSA? *GSA Advantage is the GSA's online shopping and ordering system that provides government employees with access to thousands of contractors and millions of supplies and services. VEETech's complete GSA catalog is available on GSA Advantage.*

How can VEETech's GSA Contract help my organization? *VEETech provides a wide variety of environmental services including planning and reporting. We can work with you, your environmental director and/or other individuals to determine the level of service needed to help your organization maintain prevention and compliance.*

The next few pages provide a snapshot of VEETech, the services available through our GSA contract and pricing for basic labor categories. If you have further questions, please do not hesitate to call or contact us.

"I urge you to take advantage of this simplified acquisition process [GSA Schedules] when you deem it to be consistent with good business practices."
